We are looking for a skilled and committed leader who is passionate about inspiring children from all backgrounds to achieve their full potential, and who can uphold and encourage our values of Ambition, Bravery and Respect.

Are you passionate about developing a deep understanding of maths for all students regardless of their prior attainment or background? Do you want students to develop a love of learning maths and a curiosity for the subject that goes beyond practising the skills they are taught? Do you recognise that children will be more successful in the future if they are numerate and can apply maths in their day-to-day lives?

If you answered yes to these questions, then you are exactly who we are looking to appoint as Head of Faculty in Maths at Airedale Academy. As Head of Faculty you will provide professional leadership to secure high quality teaching and improved standards of learning and achievement for all students.

In September 2020 a new curriculum was implemented supported by an approach to teaching, learning and assessment which minimises staff workload but maximises impact on pupil progress. The maths team are committed to consistently delivering the best possible maths lessons and support each other to achieve this.

The successful candidate will be an experienced leader who has an unwavering commitment to raising standards within the Faculty and across the school and be highly motivated, creative and above all resilient. You will be working in a supportive Faculty where the team are committed to sharing best practice. You'll need to be a dedicated team player with a collaborative approach to working with others.

The successful candidate will have the ability to relate well to children and adults, have the ability to deal with conflicting demands and be able to work flexibly. You will also be a talented individual who will foster a supportive learning environment for our students.

You will be working with students, colleagues and visitors across the school, so you'll need to love working with people, have very high standards and be prepared to work hard.
